## 2. What's new in GaBi

---

# 64 bit

What are the advantages of a 64 bit GaBi?

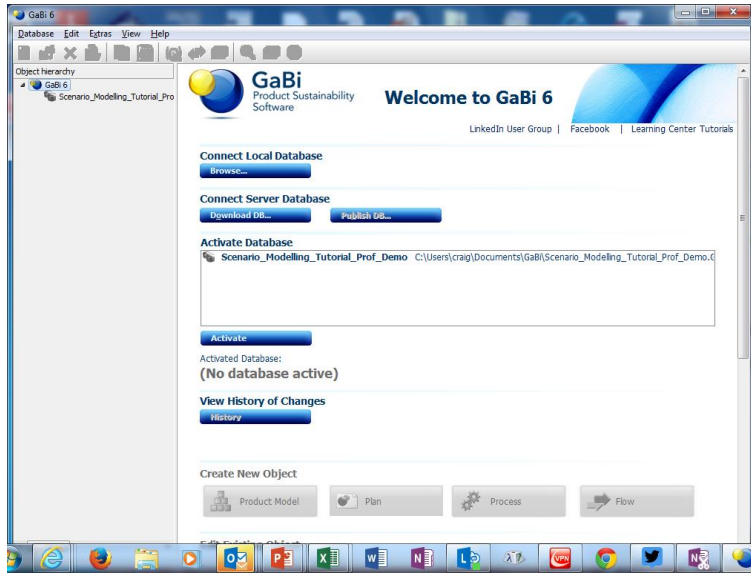

- Readiness for big data

	<b>GaBi 4</b>	<b>GaBi 5</b>	<b>GaBi 6</b>
	<b>Service Pack 18</b>	<b>Service Pack 20</b>	<b>Service Pack 27</b>
<b>Number of datasets</b>			
<b>Plans</b>	192	445	675
<b>Processes</b>	3008	4584	8443
<b>Flows</b>	9942	11042	12196

- No limit of memory consumption (RAM)
- Faster performance:
  - Activating a DB: 20-30 %
  - Parameter Explorer: 30-40 %

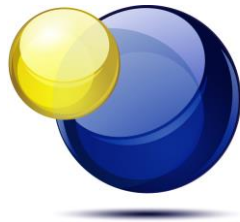

1. When you open GaBi, a pop up message will inform you a new version is available

2. The update routine will download an installer.

Extended data search

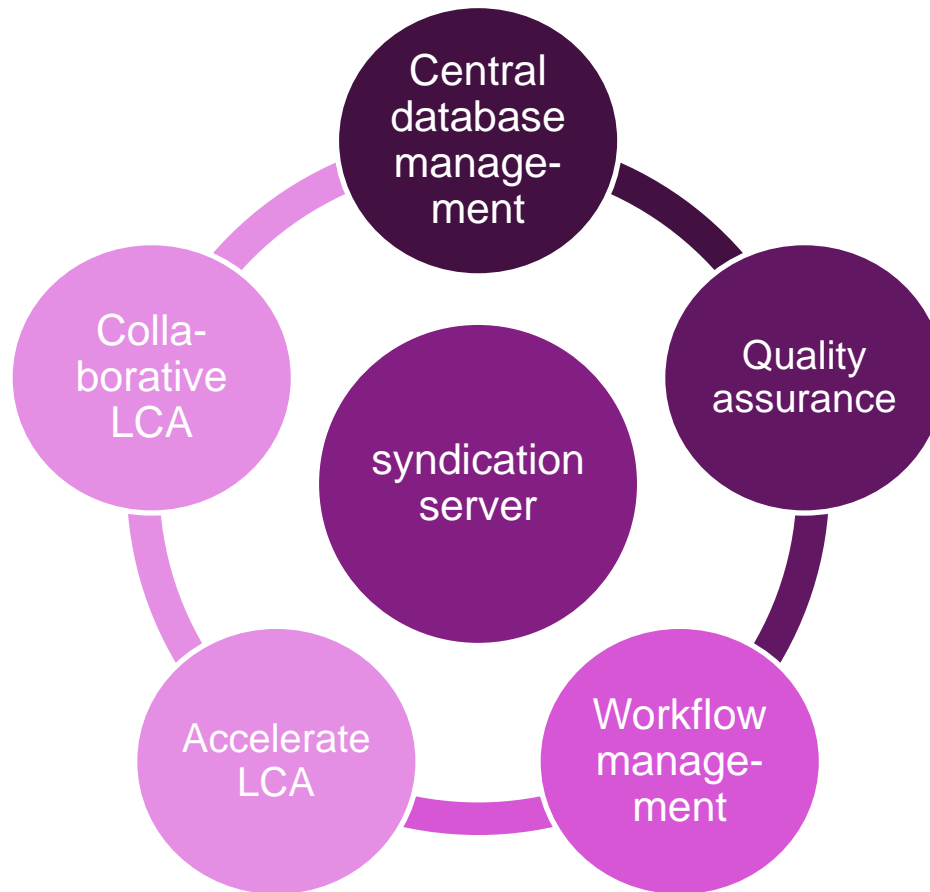

# 3. What's new in GaBi Syndication Server

# Syndication Server (former GaBi server)

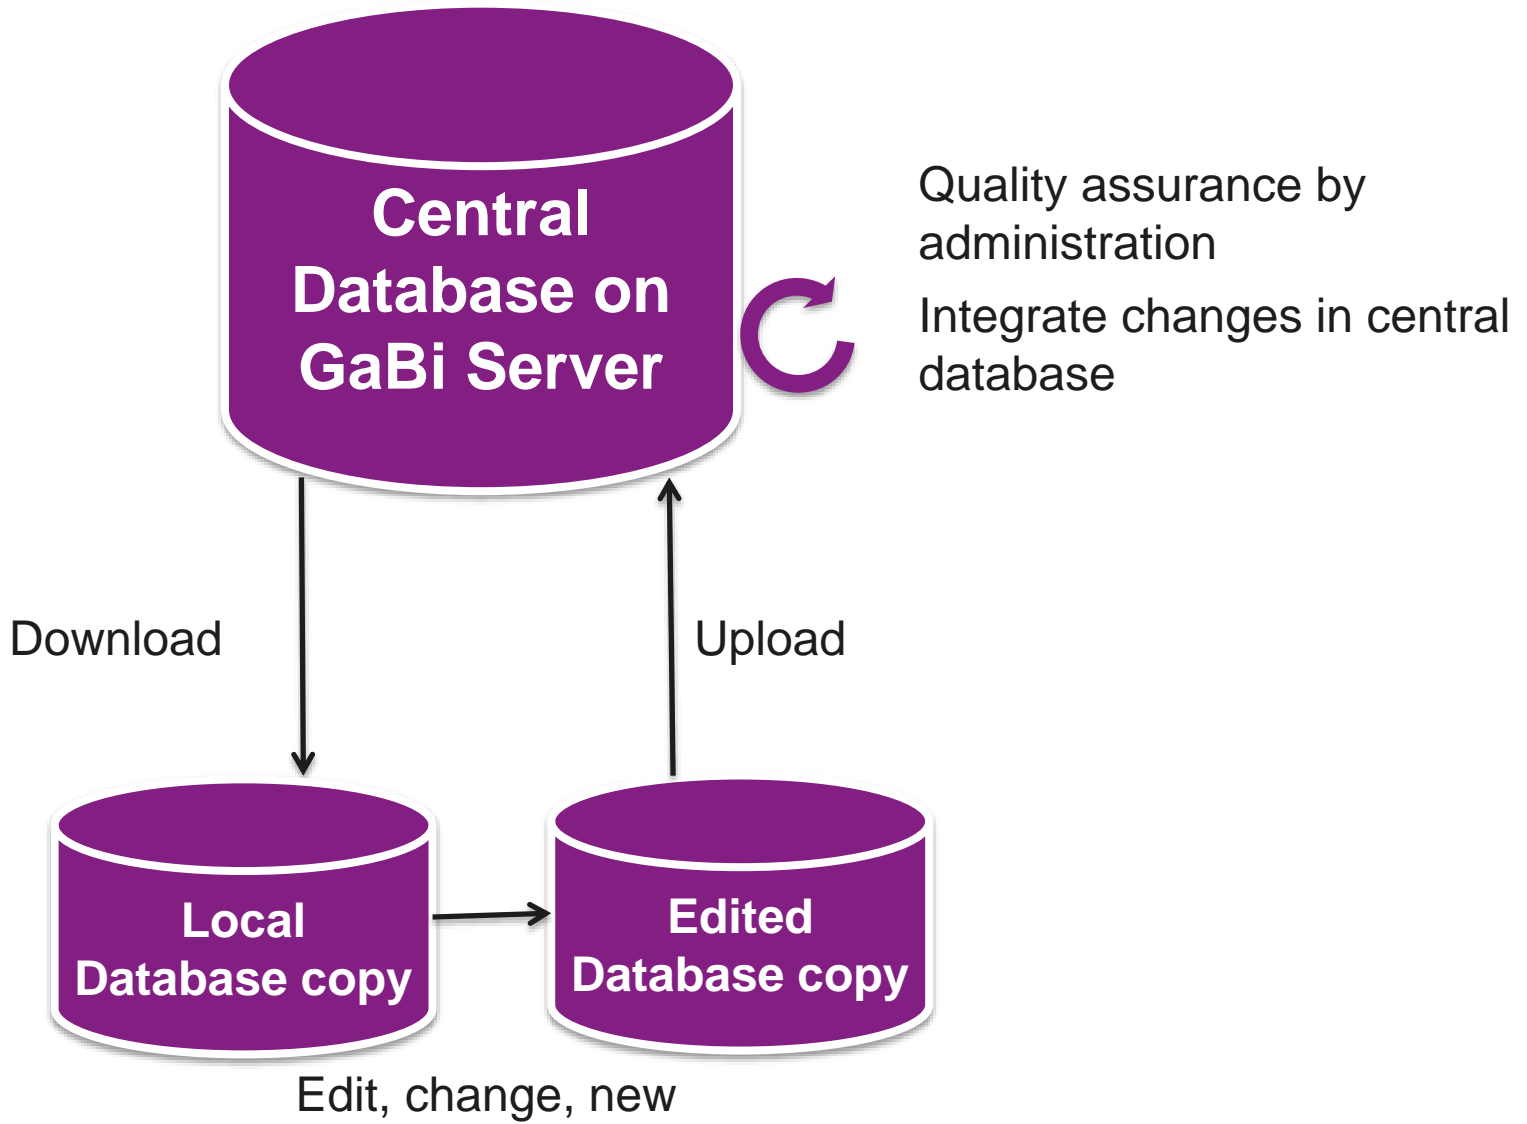

## What is it?

New GaBi module supporting LCA collaboration, for organisations with 2+ LCA practitioners

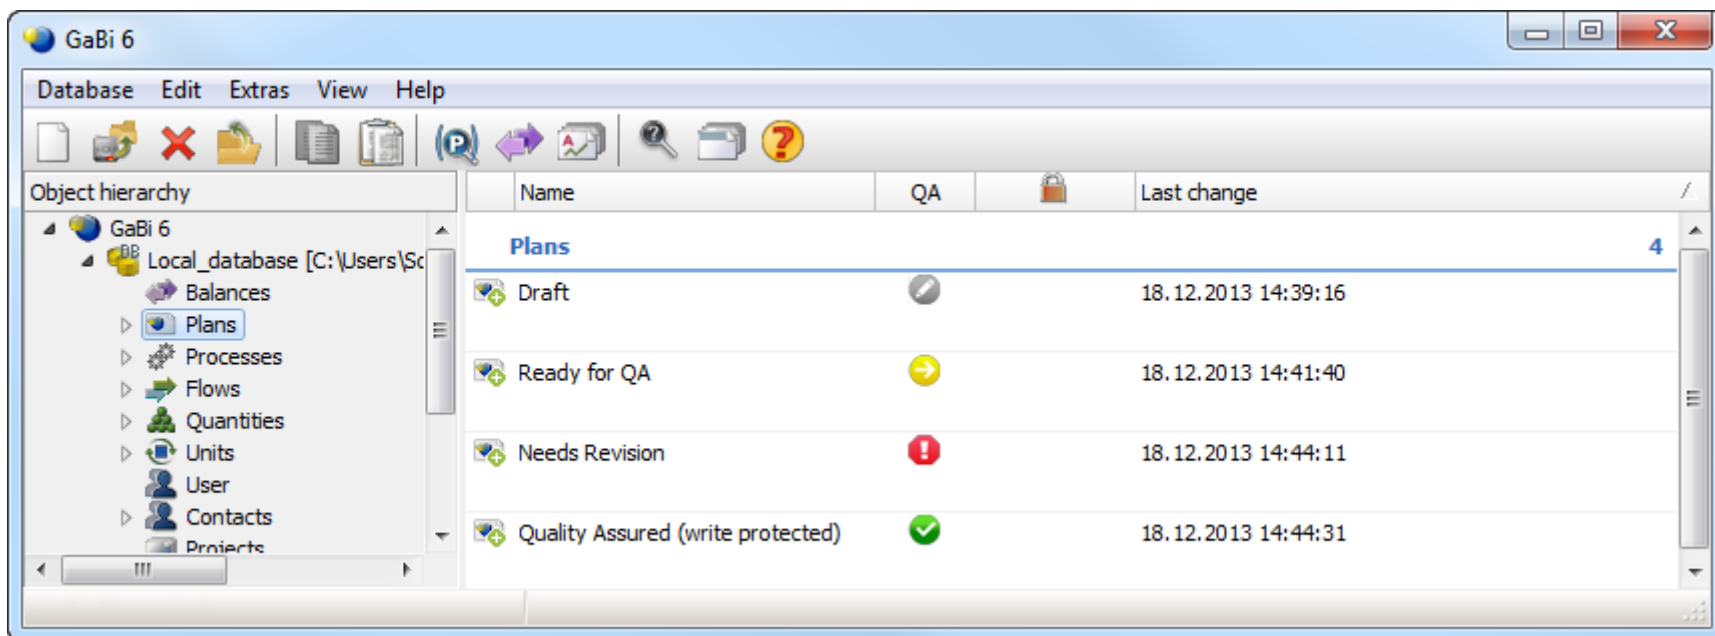

# Syndication Server (former GaBi server)

## Work stream

# Quality Assurance – DB objects can have different QA status

The screenshot shows the GaBi 6 software interface. On the left is an 'Object hierarchy' tree with 'Plans' selected. The main window displays a table with the following data:

Name	QA	Last change
<b>Plans</b> 4		
Draft		18.12.2013 14:39:16
Ready for QA		18.12.2013 14:41:40
Needs Revision		18.12.2013 14:44:11
Quality Assured (write protected)		18.12.2013 14:44:31

- Increase accountability and efficiency of LCA work
- Track the status of all objects in GaBi databases
- Lock quality assured objects
- Items in draft or review status are easily trackable and searchable

	Read & exchange objects	Create objects	Change objects	Quality review
Guest	✓	X	X	X
LCA Expert	✓	✓	Change own objects	set <b>own</b> processes to “Ready for QA”, “Draft”
Project Manager	✓	✓	✓ N/A for quality assured objects	set <b>all</b> processes to “Quality Assured” within <b>groups</b> ,
Administrator	✓	✓	✓	Set to “Quality Assured” globally or “Needs revision”

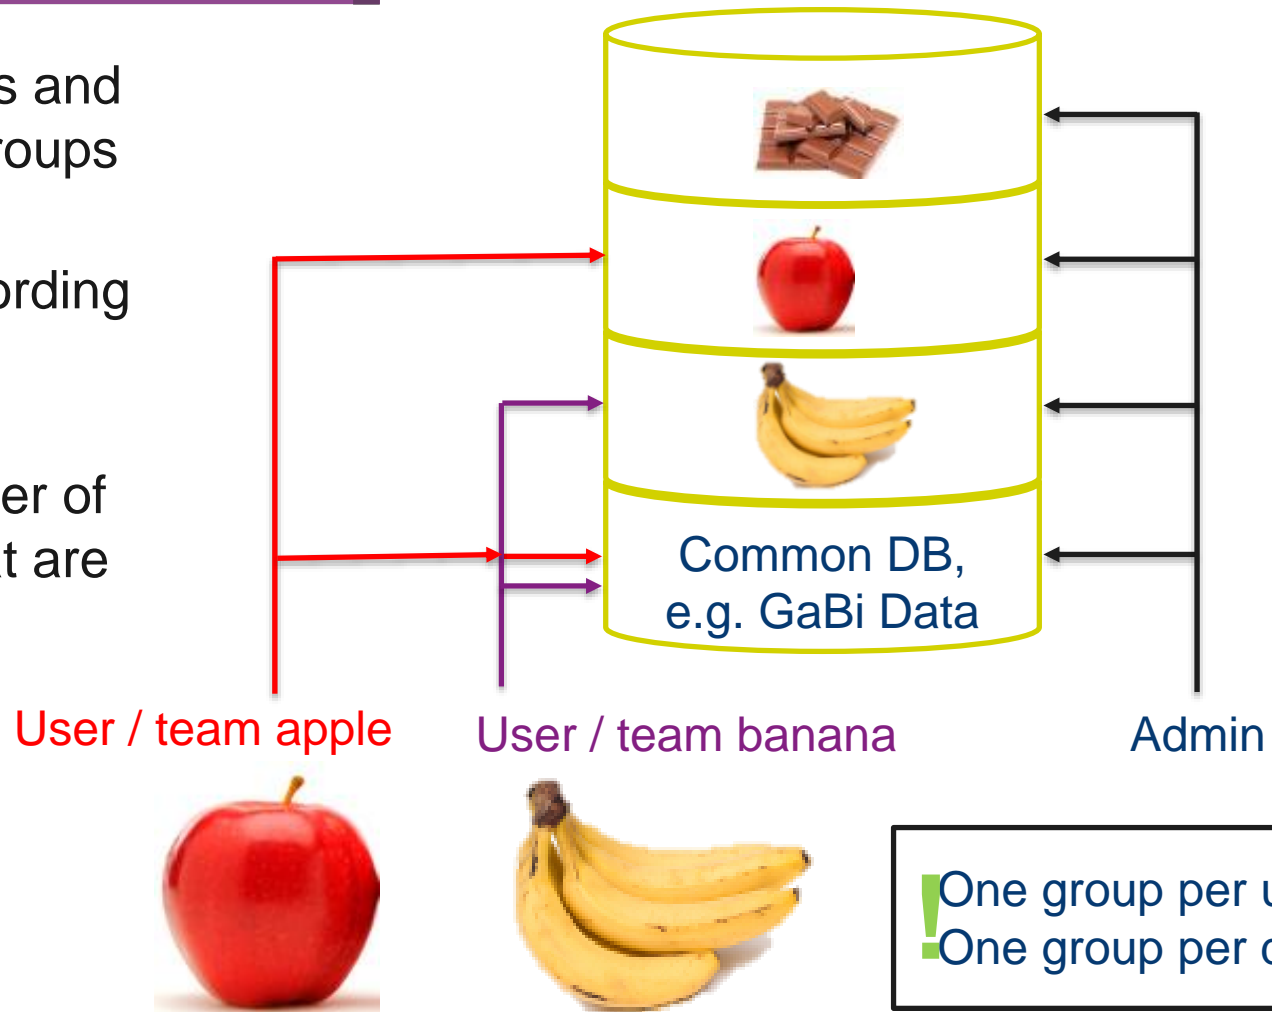

- Administrator
- Creates new users
- Changes user roles
- Dedicated roles per database

# New Feature: Groups

## Solution

- Assign users and objects to groups
- Access according to group
- Limits number of datasets that are downloaded

# 4. Questions & Answers

Thank you!

Look out for an email in the next few days with:
